Pune PUC Stations – Data Collection Plan

Suggested stations for collecting vehicle-emission data for an AQI / ML project

No.	Area	Suggested PUC Centre	Data to Request	Why Select This Area
1	Bhosari	Shivshankar PUC Centre	Vehicle PUC emission readings; vehicle/fuel category; pass/fail; test date/time. Particularly useful for industrial-zone comparison.	Industrial traffic / MIDC
2	Hadapsar	PUC centre in Hadapsar area	Vehicle type, fuel type, emission readings (CO/HC where available), pass/fail and aggregated daily test counts.	High traffic + commercial/industrial
3	Kharadi / Wadgaon Sheri	Kulkarni PUC Centre	Vehicle/fuel category, PUC emission readings, pass/fail and test date/time; aggregated counts if available.	IT + Nagar Road traffic
4	Wakad / Hinjawadi	Kakade PUC Centre / nearby PUC centre	Vehicle type, fuel type, emission readings, pass/fail and time/date; useful for commuter-heavy traffic.	IT + commuter traffic
5	Yerawada / Central Pune	PUC centre around Bund Garden–Yerawada corridor	Vehicle/fuel category, emission readings, pass/fail and aggregated vehicle-test counts.	Dense urban traffic corridor
6	Kothrud	P U C CENTER, Chandani Chowk	Vehicle type, fuel type, emission readings, pass/fail and date/time.	Dense residential + commuter traffic
7	Pimpri / Rahatani	PUC centre in PCMC area	Vehicle/fuel category, emission readings, pass/fail and aggregated daily/weekly counts.	PCMC + industrial/commuter traffic
8	Narhe	PUC centre in Narhe / Ambegaon area	Vehicle type, fuel type, emission readings, pass/fail and date/time.	Highway / suburban traffic
9	Lohegaon / Dhanori	PUC CENTER, Sathe Petroleum	Vehicle/fuel category, emission readings, pass/fail and aggregated test counts.	Airport + residential traffic
10	Tingre Nagar	Faisal PUC Center	Vehicle type, fuel type, emission readings, pass/fail and date/time.	Dense traffic / airport-side corridor

Recommended core dataset

For every vehicle/test, request only anonymous or aggregated information: date & time; vehicle type (2-wheeler/3-wheeler/car/truck/bus); fuel (petrol/diesel/CNG); vehicle age if available; CO and HC readings where applicable; diesel smoke/opacity where applicable; pass/fail; and number of vehicles tested per day. Do not collect registration numbers or owner names unless you have an appropriate legitimate basis and consent.

Important: PUC-centre equipment and available fields can vary. Confirm with each centre what data they can legally and practically share. The Maharashtra Transport Department publishes PUC-centre information, while the Parivahan PUC portal provides an Active PUC Center List. The official Maharashtra list should be used to verify authorization/current status before field visits.

Source check: Maharashtra Transport Department PUC-centre list and Parivahan PUC Center List. The Maharashtra list available online contains centre names, addresses and equipment categories such as Multi Gas Analyser and Opacity Meter; verify current status before relying on older list entries.
